Auto/Mate®

To Whom It May Concern,

I wanted to take the time to write you about Auto/Mate's National Customer User Summit. This year's event will take place from October 23-25, 2019 in Nashville, TN.

Auto/Mate's User Summit is a great opportunity to:

- Get the most out of Auto/Mate's modules to drive bottom line results
- Meet our development team and be a part of the future of Auto/Mate products
- See where we're headed, and share thoughts about how we can help
- Share and discuss best practices for dealerships

It's a great chance to explore the tools and thinking you need to remain successful. Just last year, a controller came to User Summit with three important enhancements in mind and learned that those three capabilities were already in our software.

User Summit attendees agreed that being away from the dealership for three days was worth every minute of every day. You can see what they had to say on the User Summit web page listed below.

It's important that you get your dealership involved in this event and understand the ROI from attending! Take advantage of our early-bird registration at www.automate.com/usersummit by July 12 for just $99 for the first attendee and $79 for each additional team member.

We hope to see you in Music City for what will surely be a successful event for all involved!

All my best,
Mike Esposito
President and CEO
